

**Directory of online resources for  
Connecticut's medical marijuana program (MMJ)**  
some especially relevant to the southeastern region of CT

Compiled by Mark Mathew Braunstein  
Links active Sept 2021

- 1) The State of Connecticut's Medical Marijuana (MMJ) official portal:
  - [www.ct.gov/dcp/mpp](http://www.ct.gov/dcp/mpp)
  
- 2) Statistics of numbers of CT patients registered for MMJ & of doctors who sponsor them:  
<https://portal.ct.gov/DCP/Medical-Marijuana-Program/Medical-Marijuana-Statistics>
  - As of Sept 2021, there were 53,818 registered patients and 1,485 registered doctors.
  - With a population of 3,700,000, 1 out of every 70 Connecticut citizens is a legal pothead.
  
- 3) CT's 18 dispensaries, all providing online "menus" viewable by anyone:  
<https://portal.ct.gov/DCP/Medical-Marijuana-Program/Connecticut-Medical-Marijuana-Dispensary-Facilities>
  - The oldest dispensary in SE CT, formerly called Thames Valley Relief, was a family-owned business, but sold out to a national MMJ corporation, and so is now called The Botanist. Located in Uncasville on Route 32, 7 miles north of Conn College:  
[www.shopbotanist.com/locations/montville-marijuana-dispensary/](http://www.shopbotanist.com/locations/montville-marijuana-dispensary/)

- The newest dispensary in SE CT, opened in 2020 after an 18-month delay, was called Herbology until its corporate owner was purchased by Curaleaf, making Curaleaf the world's largest cannabis corporation. The dispensary is located in Groton, presently diagonally across the street from a Walmart: <https://ct.curaleaf.com/shop/groton>
- Patients in SE CT can now choose between an Amazon of cannabis or a Walmart of marijuana, oh joy. Or as of Oct 2021, patients can grow their own.

4) For an incomplete listing of CT's "pot docs," doctors not approved to accept health insurance, who instead charge cash for their exorbitant fees to sponsor patients, search the internet for "Connecticut medical marijuana doctors." Even "Connecticut pot docs" will get you there.

- Among them is Canna Care Docs (CCD), with 36 offices in 11 states. Its former office in New London closed after less than three years: <https://cannacaredocs.com>
- Article in *The Day*, about Canna Care Docs with my Reader Comments of 3 corrections: [www.theday.com/business/20190216/medical-cannabis-office-opens-in-new-london](http://www.theday.com/business/20190216/medical-cannabis-office-opens-in-new-london)
- Many pot docs are equally fly-by-night, for instance Empathy MD, formerly based in New London, closed down its office, and its FB page & website now are dead links.

5) Probably the most interesting website of all, the *Medical Marijuana Brand Registry*, CT's extensive database of its MMJ products (for photos, click: "PRODUCT-IMAGE → Photo") <https://data.ct.gov/Health-and-Human-Services/Medical-Marijuana-Brand-Registry/egd5-wb6r/data>

8) The above Op-Ed was reprinted 3 weeks later on Feb 22, 2019, in an updated and slightly longer version with improved illustrations in the *CT Mirror*, an online newspaper ran mostly by journalists laid off from the *Hartford Courant* when its corporate raider gutted the newsroom:
